Ms. Summerson;

With reference of disposal of Spent Nuclear Fuel and High-Level Radioactive Waste at Yucca Mountain, Nye County, Nevada (DOE/EIS-0250-D-S)

- 1 [The Alliance feels the Nevada Nuclear Waste Storage Repository is probably the best suited depository to store the spent nuclear material at this time. It is our position. That those states who create the waste nuclear material store said material in there own state. It is not the State of Nevada's responsibility to provide storage for all the other 49 states that is creating it's own potential health hazzard. They use it, They should store it.]
